

HONG KONG ACADEMY OF MEDICINE

Conference on Medical Errors

Registration Form

Medical errors constitute a most important quality problem in healthcare system today. While clients do not complain against nature for diseases, they readily complain against doctors for medical errors. A good insight into medical errors may be granted through studies on adverse events since a considerable fraction of those events are results of errors and as such preventable.

It is our honor to have Professor Alan Merry to share with us his eye-opening work in preventing drug errors and his recent safety initiatives. Professor Merry is a practicing cardiac anaesthetist whose research focuses on the reduction of error, particularly in anaesthesia. He is Professor of Anaesthesiology, University of Auckland, Chair of the Quality and Safety Committee of World Federation of Societies of Anaesthetists, and President of the Auckland Medico-Legal Society.

The conference also benefits from Mr. Woody Chang, local expert in medico-legal arena. Dr. Monica Wong will also share her experience about problems in private hospitals. Dr. Libby Lee will enlighten us on matters with the Hospital Authority.

The Conference is free of charge.

<u>Date and Time</u>
19 April 2010 (Monday)
18:30 – 20:30
