

## HONG KONG PRIMARY CARE CONFERENCE 2013 “INNOVATIONS IN PRIMARY CARE”

### ANNOUNCEMENT

The Hong Kong College of Family Physicians is honored to host and organize the 3<sup>rd</sup> Hong Kong Primary Care Conference on **16 June 2013 (Sunday)**.

This year, the Organizing Committee has chosen “**Innovations in Primary Care**” as the main theme of the conference, highlighting innovations in education, research and healthcare delivery in primary care. This conference serves as an impetus for bringing together experts, clinicians and healthcare professionals in addressing present and future challenges. We hope to provide a fertile platform for networking opportunities, open exchange of experiences and views on latest developments and trends in primary care among different disciplines in addition to sharing of latest scientific updates and research activities.

This conference will feature an exciting blend of plenary sessions, workshops, seminars, paper and oral presentations. Furthermore, we have also added “**Novice Research Paper Award**” in our Full Paper Competition to stimulate and engage our junior doctors and healthcare professionals in evidence-based research. “**Best Oral Presentation**” and “**Best Poster Presentation**” have also been added in the Free Paper Competition. We sincerely encourage you to register for the conference and join the competitions.

More details regarding the conference will follow soon in the Hong Kong Practitioner, FP Links and our College website <http://www.hkcfp.org.hk>. We look forward to your participation and contribution. Get involved and let's work together to enhance primary care in Hong Kong.

Dr. Lorna NG and Prof. William Wong
