

## ***Croucher Scholarships and Fellowships 2014***

Applications are invited for study awards tenable in 2014. If you are a permanent Hong Kong resident and wish to pursue a career in the natural sciences, technology or medicine then you may be eligible for one of these competitive awards.

### **Croucher Fellowships for postdoctoral research**

For promising young researchers who obtained doctoral degrees after September 2012, students in the final year of their doctoral studies, or qualified medical doctors.

- Tenable at institutions outside Hong Kong.
- Full cost award covering airfares, a contribution towards living expenses, a conference grant and other allowances over a period of up to two years.
- Candidates must prepare a detailed research proposal.

### **Croucher Scholarships for full time doctoral studies**

For outstanding students with First Class Honours or equivalent degrees, final year undergraduate students, or MPhil students graduating before September 2014.

- Tenable at institutions outside Hong Kong.
- Full cost award including tuition fees, airfares, a contribution towards living expenses, a conference grant and other allowances over a period of up to and including the third year of study.
- Offers to final year undergraduate students conditional upon candidates obtaining First Class Honours or equivalent.
- Candidates must prepare a detailed research proposal.

Through partnership agreements with the Universities of Cambridge and Oxford, and institutions in France and Germany, the Foundation offers a number of special scholarships for doctoral study. Please refer to our web site for details of these awards.

### **How to apply**

You will find full details of all the awards available, and the application procedures, on our web site. Your application will include a detailed scientific proposal, so please allow plenty of time to complete the form. All applications must be submitted online **before 5:00 pm on 15<sup>th</sup> November 2013.**

*The Croucher Foundation is an independent private foundation dedicated to promoting the standard of the natural sciences, technology and medicine in Hong Kong. We offer a variety of funding programmes including scholarships for doctoral study, fellowships for postdoctoral research, young investigator awards, senior research fellowships, and grants for conferences, workshops and collaborative research. Croucher Scholarships and Croucher Fellowships are highly competitive and, to ensure fair competition, the Foundation as a grant-making body does not welcome any direct request from any individual for help or counselling.*
