Call for Registration / Abstract

Frontiers in Medical and Health Sciences Education 2020 Medical Education Disrupted – Negativity or Creativity

Date: November 27 - 28, 2020 (Friday and Saturday)

Venue: Cheung Kung Hai Conference Centre, LKS Faculty of Medicine, The University of Hong Kong

The Bau Institute of Medical and Health Sciences Education, LKS Faculty of Medicine, The University of Hong Kong is very pleased to invite friends and colleagues to join the Frontiers in Medical and Health Sciences Education 2020 on November 27-28, 2020.

The conference is a flagship educational event of the Faculty. Entitled “**Medical Education Disrupted – Negativity or Creativity**”, the 2-day conference will feature stimulating plenary sessions, panel discussions, workshops and free paper presentations, which aim to provide a platform for practitioners to exchange experience and knowledge in medical and healthcare education.

Global transformation and disruptive innovations are taking place at neck breaking pace and this has wide-reaching implications, especially as they relate to medical and health care education, research and practice. An array of topics will thus be explored in this conference centering around the questions of “What is disruption?”, “What is happening now?” and “What is likely to happen next?” “How would or should disruption in health care or other industries affect the way we train our health care professionals?” Hopefully after attending this conference, delegates will be challenged to adopt ever more creative ways in nurturing disruption embracing graduates in this ever changing world.

We are privileged to have a panel of eminent overseas speakers as well as a diverse complement of regional and local speakers, all of whom will undoubtedly inspire debate and discussion:

Invited Speakers:

Professor Sanjeev Arora
The University of New Mexico, USA

Dr Philip Beh
The University of Hong Kong

Dr Scott Border
University of Southampton, UK

Professor Michael Botelho
The University of Hong Kong

Dr Tom Cecot
The University of Hong Kong

Dr Julie Chen
The University of Hong Kong

Professor Ming Ming Chiu
The Education University of Hong Kong

Professor Andy Chun
City University of Hong Kong

Dr Poh Sun Goh
National University of Singapore

Dr Jason Hwang
Jason Hwang LLC, USA

Ms Tanya Kempston
The University of Hong Kong
