New and Replacement Staff Members	15
New College Council Members	15
Academy Lounge	16

*Dear Fellows and colleagues,*

It is with a heavy heart that I write this message to you today (2 October) as I have just returned from attending the Memorial Service of Professor Sir David Todd, the founding President of the Academy, who passed away on 16 August 2017. He was an inspiration to many of us in the profession and set in place the many core values that we live by at the Academy.

I would like to update you on a number of activities that have been done in memory of Prof Todd. A press release was jointly issued by the Academy, Hospital Authority, and the University of Hong Kong's (HKU's) Faculty of Medicine on 17 August. A Condolence Corner was set up earlier at the Library on 3/F of the Academy, making available a condolence book for those who wish to express condolences, share thoughts and reminiscences about Prof Todd. And today, a Memorial Service for Professor Todd, co-organised by HKU, Hong Kong Academy of Medicine, Hong Kong College of Physicians, and Diocesan Boys' School was held at HKU's Loke Yew Hall, with a full house of over 600 guests attending the solemn ceremony.

At the time of writing, an obituary has been arranged for publication in the international medical journal, *The Lancet*, besides our own *Hong Kong Medical Journal* and this issue of *Focus*. We are also working with the HKU counterparts on a memorial book to commemorate Sir David's life, one that was so well-lived. The book is targeted to be distributed at this year's David Todd Oration, which will be held in conjunction with our annual fellowship conferment on 15 December 2017.

The prestigious lecture, named after Sir David, was established in 1995 to recognise his tremendous contributions in setting up the Academy. This year's Orator, the last one nominated by Sir David himself, is the Dean of HKU's Faculty of Medicine, one of Sir David's mentees. I am certain that Prof Gabriel Leung's oration, entitled 'Coming Full Circle', will be enlightening for our newly admitted young Fellows, and inspire them to become future leaders.

Being the statutory body responsible for the training and standards of medical and dental specialists in Hong Kong, the Academy has a professional role and duty to look after the interest of the public and help the authorities in shaping the healthcare system of tomorrow. With this important mandate, members from the Academy play a unique and important role in the Medical Council of Hong Kong (MCHK). One of the foremost tasks of the Academy at the moment is to reach out and communicate with its Fellows, including the younger generation of doctors, who have voiced their views and concerns on the Medical Registration (Amendment) Bill, particularly the part concerning the Academy's representation in the MCHK. The Academy has not put the issue aside during the Legislative Council's summer recess. A consultation exercise via email was conducted for a period of around two months, aiming to collect Fellows' views on the nomination and election mechanisms for the Academy's two seats in the MCHK. The Academy Council also held a special meeting on 29 September to consider the opinions collected and discuss the latest development of the matter. We will continue our deliberation, plan for an open forum, and keep Fellows updated on the development related to the Bill.

2018 will mark the 25th anniversary of the Academy. An Organising Committee chaired by Dr Chor-chiu Lau, our Vice-President (General Affairs), is working hard with various subcommittees and the Secretariat to plan a series of activities throughout the year that lead up to the Anniversary Congress to be held on 7-9 December 2018, with the theme 'Beyond 25: New Paradigms in Healthcare'. Renowned speakers from around the world will be invited to share their expertise and knowledge. I would like to invite you all to participate in these events and activities to celebrate your Academy's silver jubilee.

In ending, and for one more time, I would like to pay a special tribute to our founding President, who guided the Academy through its formative years. As the seventh president taking up the helm, I will draw strength from his beliefs when facing challenges, and honour his memory by continuing the work that was dear to his heart. Judging from the outpour of condolence messages we received, and the number of attendants at his memorial service, I believe he will be fondly remembered and greatly missed by many in the profession and the community. His spirit and visions will forever remain the foundation of this organisation.

*Prof CS Lau  
President  
2 October 2017*

## AGM, Fellowship Conferment Ceremony, and David Todd Oration 2017

This year's Annual General Meeting (AGM) will be held at 5:30 pm on 15 December 2017 (Friday), at Lim Por Yen Lecture Theatre of the Academy building. All Fellows are welcome to attend the Conferment Ceremony.

The 24th Annual Fellowship Conferment Ceremony will be held at Run Run Shaw Hall of the Academy building at 6:00 pm on 15 December 2017 (Friday). The ceremony will be held in conjunction with the 2017 David Todd Oration, at which Prof Gabriel Leung, Dean, Li Ka Shing Faculty of Medicine of The University of Hong Kong, will deliver a talk on 'Coming full circle'. All Fellows are welcome to attend the Oration.

## HKAM 25th Anniversary in 2018

### 25th Anniversary Logo Design Competition

The 25th Anniversary Logo Design Competition has successfully completed and the winner is Dr Chi-kin Lo, Department of Orthopaedics and Traumatology, Yan Chai Hospital. Dr Lo will receive a certificate and a 12.9-inch iPad Pro WiFi 256GB at the Academy's Annual Fellowship Conferment Ceremony on 15 December 2017 (Friday).

According to Dr Lo, the logo combines the ancient Chinese character “醫”, which stands for medicine, and the number “25” to represent the 25th anniversary of the Academy. Use of the ancient Chinese character “醫” in the logo is not simply because of the beauty of Chinese calligraphy. The upper part of the Chinese character “醫” stands for a bag of arrows, and the lower part is a bottle of alcohol. The character conveys the message that alcohol was used to disinfect archery wounds in ancient China. Indeed alcohol-based disinfectant is still used in surgery nowadays. There was no microscopy nor microbiology in ancient China. Use of alcohol in wound management followed careful clinical observation and its proven effectiveness in subsequent patients. This is undoubtedly the essence of modern evidence-based medicine (EBM). The Chinese character “醫” exemplifies the scientific nature of medicine and the spirit of EBM to continuously improve clinical practice. This echoes the objectives of the Academy to promote the advancement of the art and science of medicine; and to promote integrity and high standards in the practice of medicine and its specialties in Hong Kong. The colour of the design matches that of the Academy logo. The inclusion of both “25th Anniversary of Hong Kong Academy of Medicine” and “香港醫專廿五載” in the logo also manifests the bilingual nature of Hong Kong.

The winning logo will be refined and then used on all occasions related to the Academy's 25th anniversary celebratory events, e.g. letterheads, souvenirs, website, backdrops, etc.

The 25th Anniversary Organising Committee thanks all the entrants for submitting their designs for the competition, and congratulate Dr Lo on his win.

## Save the Dates!

## 51st Singapore-Malaysia Congress of Medicine, 21-23 July 2017

President Prof CS Lau and Council Members attended the Congress, entitled 'Moving Forward, Staying Ahead' organised by the Academy of Medicine, Singapore (AMS). The Academy's delegates participated in various scientific sessions as speakers and panelists to share their invaluable insights.

At the Induction Comitia of the AMS, Prof CS Lau addressed the new fellows and appraised the great achievement of the AMS, which celebrated its 60th anniversary in 2017. Prof Lau and several College Presidents were conferred the Fellowship of the AMS. All the Academy's delegates were also invited to join a gala dinner in celebration of the Diamond Jubilee of the AMS.

Besides, Council Members of the three academies (Singapore, Malaysia, and Hong Kong) attended the Joint Council meeting to share updates on their respective latest developments and discuss plans for further collaboration.

## Signing of Cooperation Framework Agreement with Health and Family Planning Commission of Sichuan Province, 27 September 2017

On 27 September 2017, the Health and Family Planning Commission of Sichuan Province and the Academy signed a Cooperation Framework Agreement to collaborate on medical education and specialist training. Director of Health and Family Planning Commission of Sichuan Province Mr Shen Ji signed the agreement with the Academy President.

## In Memoriam: Professor Sir David Todd (1928–2017)

Professor Sir David Todd, Founding President of the Academy, passed away peacefully after a brief illness on 16 August 2017 at Queen Mary Hospital—where his medical education matured and exceptional career achievement endured. He was taken care of by those he had taught and surrounded by his family, beloved students and mentees.

Widely revered by the medical profession in Hong Kong and internationally for his achievements in medical education and research, Sir David also had an unassailable reputation for his selfless dedication to patient care and numerous community services.

Sir David was instrumental in the establishment of the Hong Kong Academy of Medicine (HKAM). He was Chairman of the HKAM Preparatory Committee from 1990 to 1992 and served the Academy as her founding President between 1992 and 1996. After stepping down from his Presidency, Sir David continued to give support to the Academy Council and offered advice. To honour his contribution, the Executive Board of the HKAM Foundation Fund proposed in 1995 to organise an Oration in the name of Sir David to be held annually at the Academy. In 1997, Sir David was further elected an Honorary Fellow of the Academy.

Professor Todd, as many of us used to fondly call him, was regarded a formidable and caring teacher and mentor by his students and colleagues and commanded tremendous respect from the medical community in Hong Kong.

“There is more to a good medical and dental practitioner than the ability to pass examinations: compassion and wisdom must be added to expertise.” He once wrote in the foreword of the Academy’s Tenth Anniversary Commemorative Book.

In his 2014 speech at the first dinner gathering organised for Council members and Past Presidents to meet with distinguished Young Fellows, Prof Todd said:

“You are a specially gifted group and with this come obligations. These include being leaders in preventing and treating disease, carrying out research to advance health care, sharing your knowledge with colleagues, especially those who follow in your footsteps, educating the public and placing service before self-interest. In other words honour professionalism, and be role models. Some of your work can be done through the Academy and its Colleges and I hope you will actively contribute to their endeavours.

Hong Kong is going through difficult times. You face more challenges than we did in the past. But Hong Kong has survived and thrived. The medical profession traditionally shies away from politics but we may no longer be able to do so. Come what may the integrity of our profession must be maintained. I trust you can strike a balance between idealism and reality. Einstein said ‘Life is like riding a bicycle. To keep your balance you must keep moving’. So do keep moving in the right direction and uphold the profession. In this I wish you all every happiness and success.”

Besides his work in the Academy, he had contributed immensely to the development and growth of medicine in the city and beyond. He was Head of the University of Hong Kong Department of Medicine from 1974 to 1989, Founding President of the Hong Kong College of Physicians in 1986, and a member of the first Hospital Authority Board in 1990. He was also Chairman of the AIDS Trust Fund, Chairman of the Health Services Research Committee, Vice-Chairman of the S.K. Yee Medical Foundation, and Trustee of the Croucher Foundation and the Sino-British Fellowship Trust.

Prof Todd also emphasised the importance of research in medical education and training, commenting that “it focuses the mind, increases analytical powers, and contributes to improvements in health and patient care.” Between 1986 and 1993, Prof Todd served on the University and Polytechnic Grants Committee and was the first Chairman of its Research Grants Committee.

Sir David had received numerous local and overseas College Fellowships and awards over the years with the Carl de Grouchy Medal awarded by the Haematology Society of Australia in 1979 among the most notable ones. For his services to medicine and education in Hong Kong, he was awarded an Officer (OBE), a Commander (CBE), and Knight Bachelor of the Most Excellent Order of the British Empire in 1982, 1990, and 1995, respectively.

Sir David has left behind a legacy of love, respect, leadership and, most importantly, humanism. He will be always remembered by his family, friends, colleagues, students, and staff.

**CS Lau**  
President  
Hong Kong Academy of Medicine

This article also appears in the October 2017 issue of the *Hong Kong Medical Journal*.

# News and Announcements

## Fellowship / CMECPD

### Reduced Subscription Rates

1. Fellows residing outside Hong Kong or retiring from all remunerative practice/job/business may submit a written application for reduced rates before 31 December 2017 if they wish to enjoy the reduced rates in 2018.
2. Fellows aged over 65 will be required to pay 1/3 of full subscription rate only. Also, Fellows aged over 70 will not need to pay any subscription. The payment status of these two types of Fellows will be updated in the Academy register automatically.
3. For details of the policy on reduced subscription rates, please visit <[http://www.hkam.org.hk/fellows\\_area/reduced\\_rate.pdf](http://www.hkam.org.hk/fellows_area/reduced_rate.pdf)>.

### CME/CPD Principles & Guidelines 2017-19

Please note that the CMECPD Principles & Guidelines for the cycle 2017-19 will remain unchanged, i.e. no more than 75 points can be awarded for passive participation in a 3-year cycle. Fellows are strongly advised to maintain a balanced CMECPD profile with a mix of different activities, in order to capture the full benefit of different types of CMECPD activities. The document, *Principles & Guidelines 2017-19*, is available online on the Academy website.

(Note: Individual Colleges will have their own set of guidelines based on what have been agreed at the Academy level. There may be specific rules or requirements that the Colleges determine to be relevant for their specialties.)

### Fellow's Contact Details Update

The Academy sometimes gets error messages when sending messages to Fellows' registered emails, which may be caused by full mailboxes, invalid addresses, etc. A valid email address is essential for Fellows to gain access to iCMECPD account and view the CME/CPD profile. In order to help us maintain an up-to-date database, please keep us informed whenever there are changes to your email address, mailing address, or contact number by updating information in your iCMECPD account <<http://www.icmecpd.hk>>. Fellows also need to be aware of mailbox capacity and keep the registered emails active by ensuring that there is sufficient space in their accounts for emails to be delivered.

### iCMECPD App now available at App Store and Google Play

To further enhance the online services for CMECPD, the Academy has developed a mobile application for capturing attendance — **iCMECPD App**. It is now available at Apple's App Store and Google's Play. Fellows may download the App by scanning the respective QR code below (or search "icmecpd" from App Store/Google Play) and install it in their smartphone with operating system in iOS (8.0 or above) or Android (4.3 or above).

Starting from 2017, Fellows may capture their attendance by using the App to scan the QR code for CMECPD activities held by the Academy/Colleges at the HKAM Jockey Club Building. The Academy has started liaising with organisers on pilot runs of the App for their activities to be held so that they will gradually use this paperless online accreditation application and attendance capture process. In addition, briefing sessions will be conducted for organisers to further promote the App and the system.

iCMECPD App

## Young Fellows Chapter

The Young Fellows Chapter (YFC) was established in July 2017. Its membership is comprised of representatives from the 15 Specialty Colleges. A 'young fellow' is one who is within ten years of being awarded Fellowship of the Hong Kong Academy of Medicine.

YFC is tasked by the Academy Council and boards with providing feedback and comments about issues relating to young Fellows. It also serves as a platform for communication between young Fellows and the Academy Council, as well as a conduit to present the views of young Fellows to the Academy. The YFC strives to engage young members and encourage their involvement in the Academy. In addition, it enables inter-College collaboration to promote professional development and research among young Fellows across specialties, both locally and internationally.

Members of the YFC have an opportunity to participate in the activities of various boards and committees of the Academy, namely the Education Committee, HKMJ Editorial Board, House Committee, F&B Subcommittee, HKJC ILCM Advisory Committee, HKJC DPRI Governing Board, and Working Group on Professional Indemnity Insurance. The Chair and Vice-Chair are invited to attend Council meetings of the Academy in a non-voting capacity. Other members are invited to observe the activity of boards and committees and comment where appropriate.

Please feel free to email any enquiries or comments to the YFC at [yfc@hkam.org.hk](mailto:yfc@hkam.org.hk).

### YFC members

Henry Wong (Hong Kong College of Anaesthesiologists)

## Simulation for Incident Command Training cum XVR Users' Group Meeting 2017

The Hong Kong Jockey Club Disaster Preparedness and Response Institute (HKJCDPRI), in cooperation with XVR Simulation, held a seminar on 'Simulation for Incident Command Training' and an XVR Asian Users' Group Meeting on 12-13 September 2017 at the Hong Kong Academy of Medicine. The event aimed at creating a platform for Asian users not only to discuss current and future developments in disaster-preparedness and disaster-response simulation training, but also explore opportunities for regional cooperation. Speakers from HKJCDPRI, Seoul Metropolitan Fire Brigade Incident Command Training Centre, Singapore Civil Defence Force Advanced Command Training Centre, and Department of Fire & Emergency Services of Great Southern Australia took turns to deliver presentations on their practical experiences on incident command simulation training. Moreover, technical representatives from XVR Simulation showcased the latest XVR model, the updated version of Crisis Media, and the company's product roadmap for the coming years. In addition, a technical visit to the Hong Kong Fire and Ambulance Services Academy was paid by the participants on 12 September 2017. The 1.5-day event was attended by 47 participants who came from Australia, Hong Kong, Mainland China, Netherlands, Philippines, Singapore, and South Korea.

*Participants attending the seminar delivered by Superintendent Wayne Green, Department of Fire & Emergency Services of Great Southern Australia*

*Whilst the participants are paying a technical visit to the Hong Kong Fire and Ambulance Services Academy of the Hong Kong Fire Services Department, they are amazed at the massive collection of antique fire services appliances, equipment, and accoutrements displayed in the museum*

## The latest HKJCDPRI Policy Brief is released

As a platform for knowledge exchange and policy discussion in response to disasters in Hong Kong, HKJCDPRI collaborates with the Collaborating Centre for Oxford University and CUHK for Disaster and Medical Humanitarian Response (CCOUC) and the Harvard T.H. Chan School of Public Health to jointly produce Policy Brief papers to provide recommendations in building health and community resilience for Hong Kong.

The latest Policy Brief paper can now be accessed via the HKJCDPRI website <<http://www.hkjcdpri.org.hk/policy-brief-%E2%80%93-policy-implications-managing-disasters-better-protection-people-non-communicable>>.

## Policy Implications for Managing Disasters for Better Protection of People with Non-communicable Diseases in Hong Kong

This paper discusses disaster-related health risks associated with people who have underlying non-communicable diseases (NCDs) in Asian urban communities. With reference to NCD situation in Hong Kong, key policy recommendations for better protection and preparedness of this vulnerable group are made.

Other Policy Brief papers published previously can also be found in our Research & Policy page <<http://www.hkjcdpri.org.hk/policy>>.

Should you require further information or have any feedback, please feel free to contact HKJCDPRI at (852) 2871 8507 or [hkjcdpri@hkam.org.hk](mailto:hkjcdpri@hkam.org.hk).

## Comprehensive Simulation Educator Course (CSEC), 23-26 November 2017

The CSEC aims to provide the essential knowledge and develop learners' competence in planning a simulation-based education activity, scenario development, direction, execution, and debriefing method. This course will enable the participants to have an understanding of the basic concepts of learner-centred education.

Different types of simulators and simulation techniques and their respective applications will be covered to provide the participants with the resources for their teaching purposes. At the end of the course, the participants will have the basic knowledge and skill to plan and run a simulation-based training course, develop the necessary training material, direct a scenario, and debrief the learners on the learning objectives. The course also intends to cultivate interest and passion in simulation-based education, and learners are provided with different methods to maintain and enhance their knowledge and skills in simulation-based education.

The 4-day CSEC, with enthusiastic participation of healthcare professionals, was successfully held in June 2017. Apart from representatives of the Hospital Authority, 4 out of the 24 participants were accepted to join the CSEC under the sponsorship scheme of the Academy Colleges. Special thanks go to all instructors who had spared no effort in teaching and tutoring various topics throughout the Course and Dr Robert Simon of Center for Medical Simulation (CMS) for the valuable advice. Positive and encouraging feedbacks were received from participants which would help improve the Course.

The next batch of this 4-day CSEC will be held on 23-26 November 2017 (Thursday to Sunday).

For more information about the CSEC, please visit <<http://www.hkjcilm.hk/Upload/UserUpload/CSEC.pdf>>.

The second Advanced Debriefing Course taught by faculties from CMS has been scheduled for **11-14 December 2017** (Monday to Thursday). The Course is designed to prepare leaders in simulation-based education both to develop their own debriefing and feedback skills and to structure and enhance simulation faculty development, and management of their simulation cases.

The Course welcomes graduates of IMS Simulation Instructor Course or ILCM Comprehensive Simulation Educator Course. Enrolment exercise will be launched soon. Please refer to the HKAM ILCM website <[hkjcilm.hk](http://hkjcilm.hk)> for more information.

## Events Attended by the Academy Officers

### Annual Scientific Meeting of the Hong Kong Geriatrics Society, 10 June 2017

President Prof CS Lau attended the opening ceremony of the Annual Scientific Meeting, entitled 'Chronic Diseases in Old Age: Current and Beyond'. The meeting provided a platform for discussing issues and challenges of caring for elderly people.

### Meeting with the Department for International Trade of the British Consulate-General, 14 June 2017

President Prof CS Lau, Vice-President (Education and Examinations) Prof Gilberto Leung, and Honorary Secretary Prof Henry Chan met the Department's Trade Commissioner Ms Frances Moffett-Kouadio and Assistant Trade Commissioner Ms Maggie Palmer over a lunch. Discussions were fruitful and some potential areas for further collaboration in medical education and training were explored.

### 29th Anniversary Conferment Ceremony of the Hong Kong College of Obstetricians and Gynaecologists, 14 June 2017

President Prof CS Lau offered the new College Fellows his most sincere congratulations on their remarkable achievements and wished them all the best for their professional career.

## Council Dinner, 27 July 2017

The Academy Council hosted a dinner with representatives of various medical organisations in Hong Kong. The Council Dinner provided a good networking opportunity for Council Members to strengthen the relationship with counterparts in the medical profession.

## Gala Dinner for Celebration of the 20th Anniversary of the Establishment of the HKSAR cum Hong Kong International Dental Expo and Symposium (HKIDEAS), 6 August 2017

Honorary Treasurer Dr YF Chow joined the gala dinner organised by the Hong Kong Dental Association, and was invited to be part of the cake-cutting and toasting ceremony on stage. The theme of the HKIDEAS 2017 was 'New Horizon in Dentistry'.

## Consultative Session on the 2017-18 Policy Address, 8 August 2017

President Prof CS Lau attended the consultative session for the medical profession chaired by the Chief Secretary for Administration and also attended by the Secretary for Food and Health. A submission was made with views from specialty Colleges incorporated.

## Conference organised by the Medical Women's International Association, 26 August 2017

Vice-President (General Affairs) Dr CC Lau attended the conference organised by the Medical Women's International Association (MWIA) and officiated the opening ceremony. The theme of the MWIA 2017 was 'Woman – Health – Empowerment'.

## 2017 CMDA Summit Forum, 9-10 September

A delegation of Academy representatives attended the Summit Forum of China's Standardized Medical Residency Training organised by the Chinese Medical Doctor Association (CMDA) in Beijing during 9-10 September 2017. On 10 September, Immediate Past President, Officers, and College representatives hosted a special HKAM session to share the experience of Hong Kong, covering the specialist training system as well as training for different specialties including medicine, surgery, obstetrics and gynaecology, and paediatrics. This collaboration with CMDA has greatly encouraged knowledge and experience exchange between the Academy and mainland counterparts.

# HKAM Member Services

## Academy Souvenirs

A wide range of well-designed, quality Academy gifts and accessories are available at the Academy Lounge. Fellows may also place an order by completing and returning an order form to the Secretariat. Please visit the Academy website for details.

## Yum Cha Service at the Academy

Are you looking for a distinctive dim sum place for gathering with family and friends? The Academy has been serving the Chinese delicacy once a month on selected Sundays from 12:00 noon. Come and enjoy our vast range of Cantonese dim sum served with a selection of finest tea. You may also have surprise encounter with colleagues you have not seen for a long time!

Scheduled dates in 2017\*:

17 December

Scheduled dates in 2018\*:

7 January, 11 February, 25 March, 15 April,

13 May, 17 June

(ample parking space available free of charge)

\* The schedule is subject to change

Online reservation is available now! You can scan the QR code or visit <<https://www.hkamonline.hk/yumcha>> to book a table and enjoy our vast range of Cantonese dim sum at the Academy.

To reserve a table

Enquiries : 2871 8832

## Exclusive Privileges for Academy Fellows

Academy Fellows can present their valid HKAM Fellowship Card to enjoy discounts of the following:

- L'Hotel Island South: 20% off on buffet, a la carte menu, and holiday brunch (valid until 31 December 2017)

Please visit the Academy website for details.

## Corrigendum

### On page 2 of the Summer 2017 issue of the FOCUS: list of 2017 appointed Justices of the Peace

The correct list of Fellows appointed as Justices of Peace (JP) is as below:

Dr CHEUNG Tak-hong, JP (The Hong Kong College of Obstetricians and Gynaecologists)

Dr HO Pak-leung, JP (The Hong Kong College of Pathologists)

Prof TAM Kwong-hang, JP (The College of Surgeons of Hong Kong)

We apologise for the error made.

## New and Replacement Staff Members

We welcome the following new and replacement staff members who joined the Academy family during the year:

Name (in alphabetical order)	Month of joining the Academy	Post
Alex CHAING	April 2017	Manager (Administration), DPRI
Cara CHENG	September 2017	Editorial Assistant
Ian KWA	September 2017	Event Coordinator
Jeffrey LEUNG	September 2017	Centre Assistant, ILCM
Flora PAAU	September 2017	Executive Officer
Monique SIN	June 2017	Event Assistant
Sindy SIU	April 2017	Centre Coordinator, ILCM
Catherine TAM	September 2017	Event Assistant
Mike TSANG	August 2017	AVIT Assistant
Kenny WONG	August 2017	Deputy Manager (Facility Services)
Wai-Hong WONG	October 2017	AV Technician

## New College Council Members

### BBQ Buffet at Fellows' Garden

Enjoy the breezy Autumn air as well as special menus such as BBQ buffet menu at the Academy Fellows' Garden! Our chefs will grill hearty meats and seafood skewers at our outdoor BBQ counter in the Fellows' Garden. The indoor buffet stations will feature a tasty assortment of starters and main courses. A wide selection of luscious desserts will be prepared to complete the feast.

### Full-course Hairy Crab Menu (valid during 1-30 November 2017)

Please call 2871 8888 for enquiries/booking or visit the Academy website for details.
